OVG inspired by a Villa in Glimmen designed by Architect Eric Cornelis Bos

OVG stands for Ode Villa Glimmen. The painting reflects the concept, design, process and results of one of the most remarkable and sustainable villas in the northern part of the Netherlands. Built in a beautiful green and natural environment. A green villa that I have designed as an architect and visual artist in the dutch village Glimmen. The villa will be completed in 2014.

"A beautiful artistic finishing touch"

The Dreams of Burj Al Arab

The Dreams of Burj Al Arab is about my reflection of one of the most influential and astonishing buildings on our planet. It's pure and beautiful form, together with it's exposing richness and location makes it a precious jewel, a shining pearl, a global treasure, a cherishing dream and a rich inspiration for many.
